**DEAR PROMOTIONAL PRODUCTS SUPPLIER:**

FleecePro is a "Supplier to the Supplier" in the Promotional Products Industry. Fleece blankets and accessories are one of the best selling categories in the Promotional Products Industry today. By becoming a reseller of our stock products, you will have access to the largest inventory of unbranded fleece products in North America.

Thick, soft and anti-pill, our products are made only from the finest polyester fleece fabrics. We take great pride in the quality of our products to assure that your customers will come back time and time again. Once your customers receive one of our products they will appreciate the difference in our quality immediately.

We take care of stocking the unbranded inventory and shipping your orders from one of three U.S. warehouses. Our products will compliment your existing line and allow you to generate orders without the burden of tying up your cash flow with inventory. Additionally, our payment terms are net 60 days (pending credit approval) which further frees up your available cash flow. Because you will be purchasing from the direct importers, our prices will allow you to sell large volume at a high profit margin.

Besides our in-stock program we offer full service overseas manufacturing and importing; complete with embroidery, screen-printing and packaging. If you would like to get started importing or are currently importing on your own, our 35 years of textile industry experience guarantees you timely delivery, professional service, high quality products and the most competitive prices.

To become a reseller, call us at **800-295-6652** to discuss your company's needs and to request product samples & literature.

Also, we invite you to visit our newly redesigned website at [www.fleecepro.com](http://www.fleecepro.com) which contains detailed product information for all of our stock products and outlines our overseas manufacturing capabilities. New to our site is a Marketing Tools section that has high and low res photos of our products and other helpful tools for you to use in your catalogs and on your websites. This site also has a very useful weight conversion tool and a photo gallery of 50+ print patterns that can be used for any fleece product made at our Chinese factory.

**We have one, crystal clear, overriding mission and that is to grow our business by delighting every client every time.**
